

New Wied Comal Co Texas
January the 8th 1855

Dear Sir

In your letter wherein you had
the favour to write, that the
seeds I did ask for, are not to
be had in this country, you ask:
What other kinds of Rheum do you want
or what other species of Rheum are
wanted? Is Rheum palmatum,
undulatum or any other species
to be had? please and send me few seeds.
Do you know any place in the States,
where Cassia Sen. or Mangel. is raised?
Is there any ^{seed} species of ~~medicinal~~ plants to
be had, which might be raised here with profit?

I am

with great respect

Yours

A. C. Engendberg
